Projects

Linkedin Profile Enhancer Website (in progress) / *React.js, Tailwind CSS, Django,* **April 2025**

Razorpay, mongodb

- Developing a smart tool to analyze and enhance LinkedIn profiles by providing personalized suggestions for improvement. Backend and APIs built in **Django**, managing products, orders, and user data.
- Built a responsive frontend using **React.js** for profile input, feedback, and suggestion sections.
- Designing backend using **Node.js and Express.js** to process profile/resume data and generate improvement insights.
- Working on keyword analysis and AI-based headline/summary generator to boost profile visibility.
- Planning to integrate resume-to-LinkedIn converter and dashboard with real-time enhancement tips.

Bajaj Emporium E-commerce Website / *React.js, Tailwind CSS, Django, Razorpay* **October 2024 - December 2024**

- Developed a full-stack **clothing e-commerce platform** with product listings, cart, user authentication, and secure checkout.
- Frontend built using **React.js** and styled with **Tailwind CSS** for a modern, responsive user experience. Backend and APIs built in **Django**, managing products, orders, and user data.
- Integrated **Razorpay** for payment processing and order confirmation.
- Implemented dynamic category filters, search functionality, and user order history.

Rhyno Ev Prebooking System / *DJANGO, Razorpay Payment Gateway* **June 2024 - July 2024**

- Built a pre-booking platform for **Rhyno EV**, allowing users to reserve electric vehicles through a secure payment flow.
- Developed the complete backend using **Django**, including user registration, booking records, and admin dashboard. Applied MERN stack knowledge successfully to create a fully functional MERN stack website.
- Integrated **Razorpay payment gateway** for seamless and secure online transaction.
- Implemented email confirmations and unique booking IDs for each transaction.
